

KOSOVO ENERGY EFFICIENCY AGENCY

PROJECT CARD EEP-003 PB

- Project Title
- Character
- Grant Amount

Beneficiaries

Ministry of Economic Developments
Ministry of Justice
Prosecutors and Court Institutions

Expected results

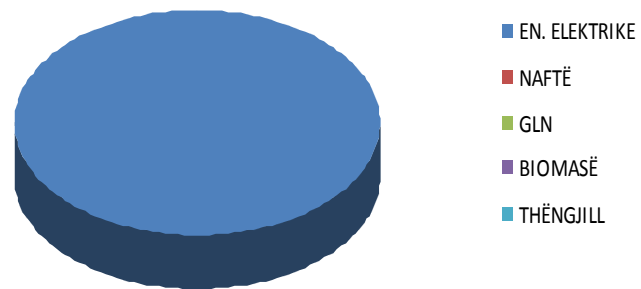

ENERGY EFFICIENCY IN PUBLIC BUILDINGS

Energy Efficiency Measures in Prosecutors and Court buildings

Implementation of EE measures by retrofitting the buildings

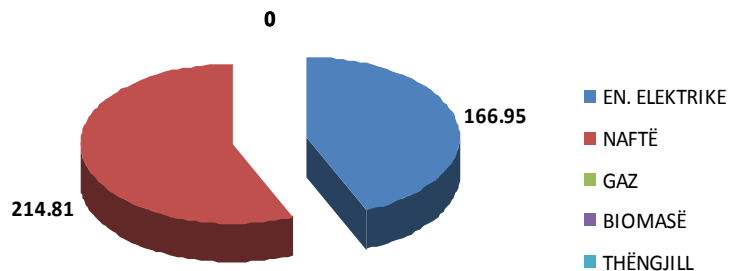

Euro 5m million

Building Structure related to Energy Consumption (source: Building Stock Study):

3.67

Prosecutor Buildings.....Total 6 Buildings

0

Court Buildings.....Total 30 Buildings

- ⇒ Implementation of EE measures and applying solar panels for heating the sanitary water will lead to energy savings at the level of 50 % respectively 192,71 toe/year (2.241 MWh/year).
- ⇒ Improve energy performance of Prosecutor and Court buildings in Kosovo;
- ⇒ Improve working conditions of Prosecutors and Judges as well as associated staff;
- ⇒ Contribute to achieving the set target of KEEAP of 9% by 2018;
- ⇒ Contribute in implementation of mid-term EE action Plan 2013-2015;

Additional comments on the project:

- ⇒ Promote EE and energy saving measures to other Public and Private institutions in Kosovo;
- ⇒ Meet EnCT requirements related to EE measures and energy savings deriving from EU directives;

This project has to be implemented within two calendaring year. Selected company for implementation should be fully specialized and have great experience in this field.

MED/KEEA will give its full contribution in monitoring, reporting and evaluation of implementation the project.

In addition, as above figures are taken from "Public buildings stock study" where collected data's are based on the figures given by municipal officials records of energy consumption per each building, thus an energy audit has to be carried out and an energy performance certificate should be issued for each building before EE measures are taken!

Conformity with the strategic documents:

The project is entirely in conformity with:

- * Project will be implemented in Kosova;
- * It relates to Energy sector;
- * There is no other Donor Organization involved in this project;
- * Beneficiary will be public entities;
- * The project is in full conformity with sector's policies and investment plan outlined in Energy Strategy and KEEAP.
