Civil Society and other stakeholders.

- **Expected results**

ENERGY EFFICIENCY IN TRANSPORT SEKTOR

Study Project on Energy Efficiency Potentials of Transport Sector in Kosovo

Study Project

Euro 0,6 million

The Study should focus on following tasks:

- ◆ EE potentials of Public Transport encompassing Air, Road and Railway;
 - ◆ EE potentials of private cars and vehicles;
 - ◆ Potentials for use of bio-fuels, Natural Gas respectively LPG and other energy sources in all modes of Transport;
 - ◆ Best practices used in Western Countries for this Sector including legal framework and other enforcement mechanisms for implementation of EE measures in Transport Sector.
- ⇒ Provide potentials of fuel savings in Transport Sector;
- ⇒ Provide potentials on use of other energy sources in Transport Sector;
- ⇒ Provide needed legal framework and mechanisms for implementation of EE measures in Transport Sector;
- ⇒ Provide short-term, medium-term and long-term recommendations respectively strategic objectives of EE measures to be achieved in Transport Sector;
- ⇒ Provide estimated reduction of CO₂ emissions for each EE measure implemented in Transport Sector;
- ⇒ Provide a long-term action plan to be implemented in conjunction with 20% set target of EU Directive for CO₂ emission reduction.

Additional comments on the project:

This project has to be implemented within six month after signing the contract. Selected company for implementation should be fully specialized and have great experience in this field.

MED/KEEA will give its full contribution in monitoring, reporting and evaluation during implementation the project.

Conformity with the strategic documents:

The project is entirely in conformity with:

- * Project will be implemented in Kosova;
- * It relates to Energy sector;
- * There is no other Donor Organization involved in this project;
- * Beneficiary will be public entities;
- * The project is in full conformity with sector's policies and investment plan outlined in Energy Strategy and KEEAP.
