<u>Ministry of Economic Development</u> <u>Mr. Adem Ahmetaj</u> Department: Policy and Monitoring Unit of Public Enterprises Str. "Mother Teresa" nr. 36, Toskana 10 000 Prishtina KOSOVO adem.m.ahmetaj@rks-gov.net	Dipl.-Ing. Richard Ellert Hemauerstraße 8 93047 Regensburg Germany ellert@ellertnet.de				
<u>Project Measures</u>	The Project purpose is to improve the sewer disposal in the municipalities of Prizren, Peja Gjakova and to contribute to an adequate community hygiene. The Project will thus contribute to improving the living conditions of the population in the Project locations, protect surface and ground water resources as well as support Kosovo in the adaptation to climate change (module objective). Indicators are: a) completion of the GIS mapping for sewer and rainwater collection systems, b) reduction of number of sewer blockages.				
<u>Requested Services</u>	<p>Feasibility studies for the waste water systems in the three cities Peja, Gjakova and Prizren in 2011 have shown that the existing sewer lines in these cities are subject to structural problems which are only detected once they lead to clogging or spilling of sewage water.</p> <p>The measures of phase V shall include, in addition to the documentation of the sewage and storm water networks in Geographic Information Systems (GIS) to flush the system as well as the study of the main lines of the sewerage networks by means of CCTV inspection, the identification and classification of damage to the sewer system, the hydraulic analysis of the sewer systems and subsequent deduction of repair requirements, need for rehabilitation and partial reconstruction of the wastewater networks. Repairs, rehabilitations and replacements shall improve the collection of wastewater in the cities of Peja, Gjakova and Prizren.</p> <p>The Project shall also reduce storm water and infiltration water flow to the waste water treatment plants (WWTPs) financed under the previous program phases and may thus reduce problems and costs linked to the hydraulic load of the WWTPs and the biological treatment process.</p> <p>Lastly, the Consultant shall support the PIU and the three regional water utilities (RWC) in the management of the implementation of services.</p>				
<u>Project Duration</u>	Approximately 48 months				
<u>Required Documents</u>	<p>The prequalification of experienced Consultants is subject to the regulations contained in the „Guidelines for Assignment of Consultants in Financial Co-operation Projects“ (see https://www.kfw-entwicklungsbank.de/Download-Center/PDF-Dokumente-Richtlinien/Consulting-E.pdf). Submission of prequalification shall include amongst other documents</p> <ul style="list-style-type: none"> ▪ Audited financial balance sheets over the last 3 years ▪ Minimum turn-over of 2,000,000 Euro over the last 3 years ▪ Maximum 10 Project references proving experience in the relevant sector and the region 				
<u>Further Information</u>	<p>Further information (in English) is available from the MPUDC, through the website https://krpp.rks-gov.net/Default.aspx?LID=2 MED procurement department, PPRC (Public Procurement Regulatory Commission) or from the Tender Agent upon written request at the address given. The document will be sent electronically (by e-mail) only. No liability will be accepted for loss or late delivery.</p>
